## SAFETY INSPECTION INFORMATION

A Safety inspection accompanying the installation of the qualifying appliance(s) must include one or more of the following 1) a leak test; 2) a pressure test if required by applicable laws, rules and regulations, and/or 3) a flow and lock up test on the regulator(s). The Safety inspection must be performed by a Professional Propane Marketer prior to the submission of any rebate application. The purpose of the Safety inspection is to support the PPERF Rebate Program rules and requirements that a safety inspection did occur as required under the rebate program rules and regulations. DO NOT INCLUDE THE SAFETY INSPECTION REPORT WITH THIS APPLICATION.

warranty or guarantee regarding the qualifying appersonal injury, property damage, business losse consequential or compensatory, directly or indire that this propane appliance was purchased for in and a receipt of purchase are required at the time aware that no check will be issued until all program appliance to meet all applicable codes.
